

Petition to Ensure Lawful Representation in Congress – Demand Action from Kash Patel & the FBI

To: Kash Patel, FBI, and Responsible Government Officials

From: We The People of the United States

We The People demand transparency, accountability, and lawful governance.

After issuing **three formal Notices of Inquiry** to public officials with a **duty to respond**, they have failed to provide **sufficient, lawful verification** that they meet the legal requirements to serve as representatives of the American people. These requirements are mandated by law and essential for a government that truly serves its people.

We are calling upon **Kashyap Pramod Vinod Patel, Director - Federal Bureau of Investigation (FBI)** to oversee and ensure that:

1. **A full, public verification process** is conducted to confirm whether every sitting member of Congress lawfully holds office.
2. **The FBI follows up on the completed file** and makes a **determination** on any failures to meet legal standards.
3. **Immediate removal and referral to appropriate authorities** (such as the Department of Justice) if necessary.

Why This Matters

- **A government without lawful representation is not a government of The People.**
- **Statutory requirements exist to prevent fraud, corruption, and unlawful governance.**
- **Failure to verify representation means decisions affecting every American may be illegitimate.**

What We Have Done

- Sent **three formal Notices of Inquiry** demanding verification. [Insert Website link to Notices]
- Allowed time for response and correction ("cure"), which has not been satisfied.
- Assembled a **comprehensive file of evidence** for follow-up and enforcement.

Our Request

- **We request a full and public verification of every Congressional member's lawful status.**
- If a representative does not meet the requirements, they must be **immediately removed** and held accountable.

Sign this petition to demand action. It is time for full transparency, accountability, and lawful governance.
